To the secretary of SAIS, Fredrik Heintz:

As the official supervisor of Jenny Eriksson I have the great pleasure to nominate her thesis to the SAIS Best AI Master's Thesis award.

Jenny has shown great diligence and thoroughness in her work, and her findings from the master thesis has been utilised within a research article at the department of Information Science, division of Computer Science. She has shown independence, mature and methodological thinking, as well as in a positive way contributed at seminars by providing valuable insights during group discussions.

The thesis was completed within the 10 weeks of the course, and Jenny reached an excellent result, which greatly influenced the fact that she was employed as a PhD student at the department.

Please feel free to contact me if I can provide any further information.

Best regards,

Magnus Larsson
Lecturer and supervisor
